- ASP.NET (.NET Framework)
- ASP.NET (.NET CORE)
- MVC
- SPA

Experience

TopTis Co.(Top Tours Group)

Jun 2020 – To Present. Kish Island

Senior Developer

Following the successful development of the 'Kish Panel' on the beautiful island of Kish, which was piloted to test and error this type of platform "B2B", We made the decision to redevelop and rebrand the second full version of the platform called "2ristPanel". One of the biggest benefits of this platform is the complete B2B structure, in the sense that the providers and developers of each suite will be able to provide their services to all tourism-accredited agencies throughout Iran after registration and authentication. 'Top Tours Co.' board of directors (a well-known company in tourism business of Iran) decided to buy 'Shantik Co' because of the '2ristPanel'.

Shantik Co.

January 2019 – To Jun 2020. Kish Island

Senior Developer

Developed the first b2b Web Application for the tourism business of kish island called Kish Panel with the capability to reserve all Kish Island tourism services, which connects Producers to travel agencies and tourism services This Platform upgrade the old Paper oriented Services to Paperless System. in addition to the b2b platform, a b2c platform is also provided, which can be used to provide Services to end-user service by API.
